

The **SALMTEC** Connector

... a compilation of applied science and land management events across a variety of sectors and disciplines...

SALMTEC's Fun Facts:

- Did you know that wool fibers trap heat close to your skin, maintaining a stable temperature and allowing moisture to exit? This helps reduce the risk of frostbite, keeping your feet healthy and functional during those chilly field excursions.
- SALMTEC is giving away a pair of JB Wool socks, just for sharing your ideas about environmental seminar topics you'd like to see in 2025! To enter, send us your feedback through our [Contact Us Form](#). You can also head over to LinkedIn, Facebook, or Instagram, search for SALMTEC's Friday the 13th post and add your ideas in the Comments by December 31st.
